DETAILED ACTION

Response to Amendment

- 1. This Office Action is responsive to the Amendment filed 6/17/04.
- 2. The Amendment filed 6/17/04 successfully overcomes the rejections set forth in paragraphs 4-6 of the Office Action mailed 1/5/04. Accordingly, these rejections are withdrawn.

The elected species, as currently amended, is allowable. Accordingly, the scope of examination has been expanded to include one of the nonelected species. This expanded examination necessitated the rejection presented below.

Claim Rejections - 35 USC § 103

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 49-51 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 6,110,994 to Cooke et al. (Cooke) in view of WO 99/51690 (WO '690). Cooke discloses a modified carbon product having attached a group having the formula -Ar-CO₂-R or -(-C_nH_{2n}-)-CO₂-R, wherein R [corresponding to "Alk" in the present invention] is for example a C₂₀-C₅₀ alkyl group, or a polymeric group, for example a polyolefin group. See the abstract; column 10, line 57 to column 11, line 27; and

Application/Control Number: 09/896,880

Art Unit: 1756

column 23, lines 47-57. However, Cooke does not disclose a dispersion composition comprising the modified carbon product in a non-aqueous inkjet ink composition.

WO '690 teaches that modified pigment products having attached thereto an alkyl group or a polymer group, for example a polyolefin group, are useful in non-aqueous ink compositions, including inkjet applications. See the abstract; page 2, line 31 to page 3, line 9; page 3, lines 23-29; and page 5, line 25 to page 7, line 11; and page 12, lines 31-35. It would have been obvious to one skilled in the requisite art to form a non-aqueous inkjet composition, as taught by WO '690, utilizing the modified carbon product of Cooke because it is taught that modified pigment products having alkyl or polyolefin groups attached thereto have improved dispersibility and dispersion stability in a variety of materials, including non-aqueous inkjet compositions.

Allowable Subject Matter

- 4. Claims 1-3, 5-12 and 14-18 are allowed.
- 5. Claims 49-51 would be allowable if amended such that the pigment recited therein includes all the limitations of allowed generic claims 1, 5 or 6.
- 6. The scope of examination will be expanded to additional species if they are amended such that the pigment recited therein includes all the limitations of allowed generic claims 1, 5 or 6.

Art Unit: 1756

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John A. McPherson whose telephone number is (571) 272-1386. The examiner can normally be reached on Monday through Friday, 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Huff can be reached on (571) 272-1385. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
